Further information regarding item 5

Item 5 – Proposal for share capital decrease – distribution to shareholders

The Company has over a certain period of time held a larger cash holding, and the Board of Directors therefore wishes that parts of these funds shall be distributed to the shareholders. The Board of Directors considers that the distribution should be made partly through a share capital reduction through reduction of par value and partly through reduction of other paid-in equity. The Board of Directors propose a distribution of NOK 391,003,876.02 in total, which corresponds to a distribution per share of approximately NOK 1.47 (following completion of Share Capital Reduction 1, cf. below).

On 24 May 2017, the Company's general meeting resolved a share capital reduction of NOK 20,582,780 from NOK 286,732,611 to NOK 266,149,831 ("**Share Capital Reduction 1**") through cancellation of own shares. Share Capital Reduction 1 will not be completed at the time of the extraordinary general meeting, however, the proposal of the Board of Directors still uses the Company's share capital after completion of Share Capital Reduction 1 as the Board of Directors considers it highly likely that Share Capital Reduction 1 will be carried out.

The Board of Directors considers that the Company will have sufficient access to both debt and equity financing to complete potential investments within the Company's investment mandate and profile following the proposed distribution. The Board of Directors assess that the Company will have an adequate equity and liquidity in light of the risk and scope of the Company's business. The auditor's statement on full coverage of the Company's non-distributable equity following the share capital decrease will be presented at the general meeting.

No significant events of importance for the Company has occurred since 31 December 2016.

The Company will provide further information regarding time schedule for completion of the share capital reduction and key information (including ex-date) in connection with the expiry of the creditor notice period.

On this background, the Board of Directors propose that the General Meeting passes the following resolution:

"The share capital of the Company is reduced by NOK 263,388,332.69 from NOK 266,149,831.00 to NOK 2,661,498.31 through reduction of the par value of the shares from NOK 1 per share to NOK 0.01 per share. In addition, a distribution of NOK 127,515,543.33 is made by reduction of other paid-in equity.

The reduction amount, including the reduction of other paid-in equity, shall be used in its entirety as distribution to the shareholders. The distribution will for tax purposes be considered as repayment of paid-in capital.

With effect from implementation of the share capital reduction through registration in the Norwegian Register of Business Enterprises, Section 4 of the Company's Articles of Association will be amended to read as follows:

"The share capital of the company is NOK 2,661,498.31 divided into 266,149,831 shares with a nominal value of NOK 0.01 each".
